IIAI AAI 2025 notification for paper 4626

IIAI AAI 2025 <iiaiaai2025@easychair.org>

2025年5月20日 下午6:30

收件者: "Charles C. Y. Yeh" <charles@cl.ncu.edu.tw>

Dear Charles C. Y. Yeh,

On behalf of the Program Committee of IIAI AAI 2025, we are happy to inform you that your submission titled,

Paper ID: 4626

Title: Fostering AI Understanding and Perception through SDG-Oriented Hands-On Learning for Non-CS Students

Author(s): Hercy N. H. Cheng, Charles C. Y. Yeh

has been accepted as POSTER PAPER (IIAI Letters) in the 18th International Conference on Learning Technologies and Learning Environments and inclusion in the conference proceedings.

Congratulations!

Poster session is scheduled on July 14 evening.

Even though the author submitted the paper with CPS format, it has been accepted as IIAI Letter based on contents and reviewers recommendation.

Please read carefully the instruction for authors to complete final paper(cameraready paper) submission and registration.

Your paper will be published by the IIAI Letters Series (IIAI Digital Library), which will be included in Google Scholar, CrossRef. Papers included in the series have DOI.

Each paper was sent to several reviewers and all papers received at least 2-3 separate reviews. To maintain the high quality of the conference, please read the reviewers' comments and suggestions carefully and closely, which are attached below in this mail. And please revise the manuscript based on them for the camera-ready submission.

1. Formatting and templates (if you use the template distributed by IIAI AAI 2025, please skip this item.)

Templates specific to your conference will be provided to you via the author kit. These templates will be configured for the correct composition your conference is using. The following templates below, are general templates designed for conferences using an A4 trim size.

The format of the final manuscript should be in a one-column format and 12 pages for full paper, 8 pages for short papers, and 6 pages for position papers in length. Up to an extra 4 pages can be purchased at registration time.

Please do not forget to add the author information on the paper in the cameraready version.

- Word Template (Doc)

<https://iaiai.org/conference/aai2025/wp-content/uploads/2024/05/iaiai-ocps-msword.docx>

- LaTeX Template (ZIP)

<https://iaiai.org/conference/aai2025/wp-content/uploads/2024/05/IIAI-Conference-LaTex.zip>

2. Cameraready submission

Please choose an appropriate title based on domain of your paper by May 30, 2025 (PST).

<https://iaiai.org/letters/>

Then, please log on the paper submission system and submit your final paper with revisions based on comments from reviewers.

If you do not have user account of the title of publication, please create your user account first.

3. Registration

Please click on the link below to proceed to register the congress by May 30, 2025 (PST).

<https://iaiai.org/conference/aai2025/registration/>

The final camera-ready copy is limited to 12 pages for full paper, 8 pages for short papers, and 6 pages for position papers, respectively, in the one-column IIAI Letters manuscript style (A4 trim size). You can purchase no more than four extra pages at a cost.

4. Congress Venue

Venue and access information will be available at

<https://iaiai.org/conference/aai2025/iaiai-aai-2025/venue-and-access/>

5. Congress and Presentation

IIAI AAI 2025 is planned to be held on the onsite basis, because we recognize the importance of face-to-face communication by gathering together at the venue.

For people who cannot come to the venue due to Covid-19 or illness, however, online presentations will be allowed on July 18. The presentation time might be shorten for online presenters.

6. Instruction for presenters and FAQ

<https://iaiai.org/conference/aai2025/program/instruction-for-presenters/>

Thank you for your contribution to IIAI AAI 2025. We look forward to seeing you in Kitakyushu, Japan.
If you have any questions, please feel free to contact us.

<http://iaiai.org/conference/aai2025/contact/>

Sincerely,

Kunihiko Takamatsu, IIAI AAI Congress Chair
Katsuhide Fujita, IIAI AAI Program Chair

----- Presentation -----

SCORE: 5 (excellent)

----- Overall evaluation -----

SCORE: 3 (strong accept)

---- TEXT:

A one day, SDG oriented workshop placed 60 first year non CS students in teams to build AI prototypes with Google Teachable Machine and Dialogflow. Comparing workshop (n = 46) and lecture only (n = 14) groups, post course surveys showed no significant self efficacy gains but revealed more cautious, realistic perceptions of AI capabilities among workshop participants.

1. Balance the quasi experimental design and bolster statistical power.

The two to one group ratio (46 vs 14) compromises equivalence and inflates Type II error risk. Future iterations should recruit a comparably sized control cohort, employ pre tests plus propensity score or covariate adjustments, and add a delayed retention test to evaluate durability of perception shifts.

2. Expand and validate learning outcome measures.

Present findings rely solely on self report scales developed for this study. Incorporate an established AI literacy instrument and at least one performance task (e.g., rubric scored prompt engineering exercise) to triangulate conceptual understanding. Report Cronbach's α , factor structure, effect sizes, and corrected p values to strengthen psychometric and statistical rigor.

3. Detail workshop artefacts and ethical reflection protocols for replicability.

Provide sample Jamboard templates, rubric descriptors, and prompts used for risk-crisis-ethics-abuse analysis. Clarify how prototypes combined image and language models, the data collection safeguards adopted, and how facilitator feedback was timed. Making materials open access would let other educators adapt the SDG AI framework across contexts and extend longitudinal investigations.

----- TEXT:

The reviewer thinks the task of getting non-CS students to create a service prototype is challenging and very interesting. Rather than the fact that there was no significant difference in the evaluation as an educational system, the specific method will attract the interest and be useful to many participants of this international conference.

The following are comments to improve the paper.

The title of the paper is not easy to understand. It would be easier to understand if you removed SGD from the title.

It is significant that the SDGs were chosen as a practical issue, but

the ingenuity and contributions made by targeting the SDGs are not the main theme of this international conference. An explanation focusing on AI education will make it easier to understand the importance of this paper.

06-Feb-2025

Dear Dr. Mustika:

JCAL-23-307.R4 "The Effect of Mind Map as a Prewriting Activity in Third Grade Elementary Students' Descriptive Narrative Creative Writing with a Writing E-portfolio"

Thank you for this resubmission. I have looked again at the manuscript, noting your responses to the reviews. The reviewers have been given an opportunity to see this re-submission. They are satisfied that their concerns have been met and do not wish to provide further advice or feedback that would delay publication of the paper.

I am therefore very pleased to accept the manuscript for publication in JCAL.

Congratulations!

My colleague Madhushanmathi Sathyamoorthy(email:JCALedoffice@wiley.com) will contact you again with further details of the procedure from here and, later, a Wiley colleague will deal with production matters. It is hard to predict exactly which issue it will appear in, although our ambition is to keep acceptance-to-printing waits as short as possible.

In order to make the research we publish in the Journal of Computer Assisted Learning more accessible to the non-expert or lay reader the Editors of the Journal have decided that all manuscripts should also include a "Practitioner Notes" section outlining - in bullet point form - what is currently known about the subject matter, what their paper adds to this, and finally the implications of study findings for practitioners. Please aim to contribute no more than four bullet points per section of approximately 80 characters (i.e., one full sentence) in order to maintain clarity. For more information on this outreach initiative please read Gunter C, Osterrieder A. Genome Biol. 2012 Aug 31;13(8):168. "A modest proposal for an outreach section in scientific publications" (<http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3491364/>).

However, your article should be available very quickly in the public domain because of our publisher has adopted an "Early View" system - an internet based advanced publication process. This will also allow you to make prompt citations of your paper. For further details about the Early View system, go to this link: http://jcal.info/online_early/index.htm

You may be interested to know that you can receive email alerts of JCAL contents pages (6 emails each year) if you are a registered user of Wiley Online Library. If you would like to be sent email alerts please visit <https://onlinelibrary.wiley.com/user-registration> to login to an existing account or to register as a user.

This journal offers a number of license options, information about this is available here: <https://authorservices.wiley.com/author-resources/Journal-Authors/licensing/index.html>. All co-authors are required to confirm that they have the necessary rights to grant in the submission, including in light of each co-author's funder policies. For example, if you or one of your co-authors received funding from a member of Coalition S, you may need to check which licenses you are able to sign.

Please find attached an image for you to use on social media upon publication of your article, to aid in its promotion. We suggest posting this alongside a link to your published article. You will be informed via email once your article has been published. Please refrain from using the image until this time to avoid confusion with readers.

When discussing or sharing your article on social media e.g. Twitter, please tag @JCAL_journal

Thank you again for submitting your work to JCAL. We look forward to seeing it in print shortly.

Best wishes

Dr. Jeroen Janssen
Editor-in-Chief, Journal of Computer Assisted Learning

Reviewer(s)' Comments to Author:

Reviewer: 1

Comments to the Author
Happy with the revisions.

Reviewer: 2

Comments to the Author

Thank you very much for revising your paper exactly according to the reviewer's comments.

Journal of Computer Assisted Learning encourages authors to consider uploading their data collection materials to the IRIS database. IRIS is an online repository for data collection materials used for second language research. This includes data elicitation instruments such as interview and observation schedules, language tests and stimuli, pictures, questionnaires, software scripts, url links, word lists, teaching intervention activities, amongst many other types of materials used to elicit data. Please see <http://www.iris-database.org> for more information and to upload. Any questions, or the materials themselves, may be sent to iris@iris-database.org. Now your article has been formally accepted, your instrument(s) can be uploaded to the IRIS database, with an 'in press' reference. The IRIS team will add page numbers to the reference once they are available.

Wiley offers authors the option to make their article available to non-subscribers on Wiley Online Library through open access publication. This service is also suitable for authors whose funding agency requires grantees to archive the final version of their article. With open access publication, the author, the author's funding agency, or the author's institution pays a fee to ensure that the article is made available to non-subscribers upon publication via Wiley Online Library, as well as deposited in the funding agency's preferred archive. For more information, see <https://authorservices.wiley.com/open-research/open-access/index.html>.

P.S. – You can help your research get the attention it deserves! Wiley Editing Services offers professional video abstract and infographic creation to help you promote your research at www.wileyauthors.com/eeo/promotion. And, check out Wiley's free Promotion Guide for best-practice recommendations for promoting your work at www.wileyauthors.com/eeo/guide.

This journal accepts artwork submissions for Cover Images. This is an optional service you can use to help increase article exposure and showcase your research. For more information, including artwork guidelines, pricing, and submission details, please visit the Journal Cover Image page at www.wileyauthors.com/eeo/covers.

[RPTEL] Decision on your Submission to Research and Practice in Technology Enhanced Learning

Hiroaki Ogata <rptel@apsce.net>

2024年8月21日 下午3:23

收件者: Yu-Feng Lin <albert@cl.ncu.edu.tw>, "Euphony F. Y. Yang" <fyang@mail.cgust.edu.tw>, Jeng-Shin Wu <Jengshin@mail.naer.edu.tw>, "Charles Y. C. Yeh" <charles@cl.ncu.edu.tw>, Tak-Wai Chan <chan@cl.ncu.edu.tw>

Enhancing Students' Authentic Mathematical Problem-Solving Skills and Confidence through Error Analysis of GPT-4 Solutions
Research and Practice in Technology Enhanced Learning

Dear Yu-Feng Lin, Euphony F. Y. Yang, Jeng-Shin Wu; Charles Y. C. Yeh; Tak-Wai Chan,

I am pleased to inform you that your manuscript "Enhancing Students' Authentic Mathematical Problem-Solving Skills and Confidence through Error Analysis of GPT-4 Solutions" has been accepted for publication in Research and Practice in Technology Enhanced Learning.

Before publication, our production team will check the format of your manuscript to ensure that it conforms to the standards of the journal. They will be in touch shortly to request any necessary changes, or to confirm that none are needed.

Articles in this journal may be held for a short period of time prior to publication.
If you have any concerns please contact the journal.

Any final comments from our reviewers or editors can be found, below.

We look forward to publishing your manuscript and I hope you will consider Research and Practice in Technology Enhanced Learning again in the future.

Best wishes,

Editorial Office

IIAI AAI 2023 notification for paper 1751

1 封郵件

IIAI AAI 2023 <iiaiaai2023@easychair.org>

2023年5月20日 凌晨1:37

收件者: Yen-Cheng Yeh <charles@cl.ncu.edu.tw>

Dear Yen-Cheng Yeh,

On behalf of the Program Committee of IIAI AAI 2023, we are happy to inform you that your submission titled,

Paper ID: 1751

Title: Design and implement a achievement system for Enhancing students' interest and self-efficacy in mathematics.

Author(s): Yen-Cheng Yeh, Jerry Yang

has been accepted as POSTER PAPER in the 14th International Conference on Learning Technologies and Learning Environments and inclusion in the conference proceedings.
Congratulations!

Your paper meets the IEEE CPS publication policy, where is a contribution of a strong ICT scope (theory, development and application), and thus, will be included in the proceedings published by IEEE CPS.

Each paper was sent to several reviewers and all papers received at least 3 separate reviews. To maintain the high quality of the conference, please read the reviewers' comments and suggestions carefully and closely, which are attached below in this mail. And please revise the manuscript based on them for the camera-ready submission by May 31, 2023. In addition, please read carefully to proceed the cameraready paper submission and registration as author.

1. Formatting and templates (if you use the template distributed by IIAI AAI 2023, please skip this item.)
Templates specific to your conference will be provided to you via the author kit. These templates will be configured for the correct composition your conference is using. The following templates below, are general templates designed for conferences using an US Letter (8.5" x 11") trim size. The format of the final manuscript should be in a two-column format and 6 pages for full paper, 4 pages for short papers, or 2 pages for poster papers in length. Up to an extra 2 pages can be purchased at registration time.
Please do not forget to add the author information on the paper in the cameraready version.

- Word Template (Doc)

<https://www.ieee.org/content/dam/ieee-org/ieee/web/org/conferences/conference-template-letter.docx>

- LaTeX Template (ZIP)

https://www.ieee.org/content/dam/ieee-org/ieee/web/org/conferences/Conference-LaTeX-template_7-9-18.zip**2. Cameraready submission**

Please click on the link below to submit your cameraready version of paper and to transfer copyright of the paper by May 31, 2023.

<https://ieeecps.org/#/auth/login?ak=1&pid=53l6Erv50ez4mMfqZsZFY4>

Instruction for cameraready paper submitters is shown at

<https://iaiai.org/conference/aai2023/cameraready-paper-submission/>

In the cameraready submission system, we strongly recommend to check the paper by paper validation system (PDF eXpress).

At the menu on the left, you may choose "Paper validation". Then, choose the option "I would like to upload my PDF to PDF eXpress® for validation." After that, enter Conference ID: 59060X, your email address, and password to proceed the PDF check. If you do not have a user account of PDF eXpress, click "New Users."

3. Registration

Please click on the link below to proceed to register the congress by May 31, 2023.

<https://iaiai.org/conference/aai2023/registration/>

The final camera-ready copy is limited to 6 pages for full paper, 4 pages for short papers, or 2 pages for poster papers, respectively, in the two-column IEEE CS Press proceedings manuscript style (US Letter (8.5" x 11") trim size). You can purchase no more than two extra pages at a cost of "13,000JPY per page".

4. Congress

Venue and access information is available at
<https://iaiai.org/conference/aai2023/venue-and-access/>

Social Event Schedule

July 8: Coffee Break

July 9: Welcome Cocktail, Coffee Break

July 10: Opening Ceremony, Coffee Break, Poster Session & Welcome Reception

July 11: Technical Tour, Banquet + Award Ceremony

<https://iaiai.org/conference/aai2023/technical-tour-luncheon-keynote-address/>

July 12: Coffee Breaks, Farewell Reception

July 13: Coffee Break, Conference Adjournment + Online Presentation

5. Congress and Presentation

IIAI AAI 2023 is planned to be held on the onsite basis, because we recognize the importance of face-to-face communication by gathering together at the venue.

For people who cannot come to the venue due to Covid-19, however, online presentations will be allowed on July 13. The presentation time might be shorten for online presenters.

6. Instruction for presenters and FAQ

iaiai.org/conference/aai2023/instruction-for-presenters/

Thank you for your contribution to IIAI AAI 2023. We look forward to seeing you in Koriyama, Japan.
 If you have any questions, please feel free to contact us.

<http://iaiai.org/conference/aai2023/contact/>

Sincerely,

Kunihiko Tamakatsu, IIAI AAI Program Chair
 Yuichi Ono, IIAI AAI Congress Chair

----- TEXT:

The paper presents an extension to the Math Island system, which was previously developed by the authors to support students in learning mathematics.

The novelty and usefulness of the paper lie in its effective integration of gamification elements into the Math Island system. By leveraging the Octalysis framework, the authors have designed an achievement system that taps into students' intrinsic and extrinsic motivations, thereby potentially fostering a more engaging and enjoyable learning experience. The paper convincingly argues that the proposed system is worthy of acceptance due to its innovative approach to addressing the persistent issue of students' disinterest in mathematics.

In conclusion, the paper presents a well-designed and innovative approach to enhancing students' self-efficacy and interest in mathematics through a gamified achievement system. I highly recommend this paper for acceptance, as it offers valuable insights into the integration of gamification elements in education, specifically targeting the critical area

of mathematics.

----- TEXT:

This manuscript for poster introduces an achievement subsystem of a mathematical game "Math Island", and aims to improve students' interest and self-efficacy in learning math. From the perspective of gamification theory, their proposal employs the strategy of goal setting and rewards by dividing learning process into multiple subgoals. We look forward to seeing how this system provides appropriate feedback to encourage student learning behavior. Besides, this manuscript needs more stylistic and grammatical editing in English.

----- TEXT:

1. The mechanisms of the proposed achievement system and Octalysis were not described in detail. Moreover, how and why they were expected to increase students' self-efficacy and interests should be provided.
2. Though the paper included research method, it did not specify the research design in detail, e.g., the participants, research tools...

further attempts to scale up the aforementioned efforts for a wider dissemination of IDC Theory through curriculum integration.

Malaysia takes the stand of promoting IDC-based education through teacher education programs offered at universities given that pre-service training can shape future teachers' instructional practices to be resonant with IDC Theory. The relevancy of their experiences with IDC inspired learning activities during teacher training may lead them to incorporate the IDC tenets in their future instructional practices. Malaysia is eager to be part of the NGO as international collaborators to gain more valuable insights of the design and best practices in relation to the Taiwanese experimental school.

This paper shares the trajectory of the development of the IDC Theory, culminating in an IDC School in Taiwan that seeks to put into practice what is espoused in the theory. It is hoped that more partners or collaborators can join in this journey of designing and conducting various IDC experiments in different countries and regions, and through this concerted collaborative effort, can respond to the current and future challenges of education in Asia and the world.

Abbreviations

AI: Artificial Intelligence; ALP: Applied Learning Programme; BRC: Book Reading Centric; IDC: Interest-Driven Creator; IDMT: Interest-Driven Mathematics Thinking; L4C: Learning For Competences; LBQ: Learning-By-Questioning; LBT: Learning-By-Teaching; MOE: Ministry of Education; MSSR: Modelled Sustained Silent Reading; NGO: Non-Governmental Organisation; QIDI: Question-Initiation-Driven Inquiry; SDG: Sustainability Development Goal; SIR: Scenario Issue Resolution; STEM: Science, Technology, Engineering and Mathematics.

Endnotes

¹ The development of the theory in fact started in 2009 when Chan and his colleagues noticed that the striking outcomes of a year-long experiment on habitual reading and writing in a school in Taiwan needed a theory for explaining the remarkable outcomes. They then spent several years to discuss the nature of the theory and identified that it must involve three critical concepts: interest, creation, and habit. All these concepts seem lacking in some Asian education systems because of their considerably examination-driven nature. In 2014, a meeting was held in Japan during the International Conference on Computers in Education among a group of Asian researchers to embark on an initiative to build the IDC Theory.

² We do not describe computational thinking and STEM projects in the IDC School here. They are the context of the application of IDC Theory in Hong Kong, and will be discussed later in this paper.

³ The IDC School teachers usually call write-curiously Learning-By-Questioning (LBQ) to address the importance of asking questions by students in their learning (Ruggeri & Lombrozo, 2014). This is because most teachers and parents in Taiwan admit that students seldom ask questions in class.

⁴ "The only kind of writing is rewriting" is Ernest Hemingway's famous quotation from the book *The Movable Feast*.

Acknowledgements

We would like to thank the Director of the IDC School, Audrey Lin, for providing us various information needed by this paper. Also, we thank principals of many other schools, the teachers and parents of the IDC School, and research assistants from the Research Centre for Science and Technology for Learning as well as some senior faculties at National Central University for their endeavour to make the establishment of the school possible. Certainly, we thank the Task Force of the IDC Theory for building the theory so that we can adopt the theory in the daily practice in the IDC School. Also we thank those colleagues at National Central University for their advices on the design of various curricula as well as Melissa Mustika for her help in formatting the draft. Finally, we thank the Ministry of Science and Technology (109-2511-H-008 -012 -MY3 and 108-2511-H-008 -012 -MY3) and the Ministry of Education of Taiwan for the financial support.

Authors' contributions

Chee-Kit Looi proposed the writing of this paper, designed the key framework of the paper, discussed some IDC-based work in Singapore, and wrote the initial version of the draft. He also involved in tightening up the final version of this paper.

Su Luan Wong wrote the introduction of the paper, the overview of IDC Theory, literature review and innovative schools in other countries as well as applying IDC Theory in teacher professional development program in Malaysia. She also involved in tightening up the final version of this paper.

Siu-Cheung Kong wrote the IDC-based work on computational thinking curriculum in details in Hong Kong.

Tak-Wai Chan was the main author of the paper who wrote the various parts in the paper.

Ju-Ling Shih wrote the second initial draft with Tak-Wai Chan after Chee-Kit Looi finished the first version. She also wrote about her work on Interdisciplinary Social Studies in the curricula design section.

Ying-Tien Wu wrote the science curriculum in the curricula design section.

Ben Chang, Charles Yeh and Chih-Yueh Chou wrote the math curriculum in the curricular design section with Tak-Wai Chan. Both Ben Chang and Chih-Yueh Chou helped format the draft.

Chen-Chung Liu wrote the English curriculum in the curricula design section together with Tak-Wai Chan.

Tzu-Chao Chien and Hui-Chun Hung wrote the reading curriculum in the curricula design section together with Tak-Wai Chan.

Zhi-Hong Chen, Hercy Cheng, and Calvin Liao wrote the writing curriculum in the curricula design section together with Tak-Wai Chan.

Funding

This work was partially funded by the Ministry of Science and Technology (109-2511-H-008 -012 -MY3 and 108-2511-H-008 -012 -MY3) and the dissemination projects on reading and mathematics by the Ministry of Education of Taiwan.

Availability of data and materials

This is more or less a position paper, describing how a new theory is being embodied in an experimental school. No empirical data was used for analysis and reporting in developing the paper.

Declarations

Competing interests

There are no competing interests that we know of.

Subject: 政理的期刊論文確定已被JLCE接受

To: Chan <chan@cl.ncu.edu.tw>, Chih-Yueh Chou <cychou@saturn.yzu.edu.tw>

陳老師與志岳學長好:

政理的期刊論文已被JLCE接受如下圖與轉寄內容所示, 非常感謝老師們的幫忙!

Action	Manuscript Number	Title	Initial Date Submitted	Date Revision Due	Status	Current Status	View Decision
Action Links	JLCE-D-19-00108	Interest-driven video creation for learning mathematics	07 Dec 2019	26 Mar 2020	10 Feb 2020	Revise	Minor revisions

底下轉寄內容是JLCE主編 陳文莉教授 以及兩位reviewer的詳細回應。

政理已將兩位reviewer的意見整合至附件中並先做一部分改正。

目前政理會先與志岳學長討論需要釐清問題的地方並修改。

待修改完後, 會再請陳老師過目與進一步調整。

最後完成版本會寄給所有作者。

政理 敬上

Journal of Computers in Education (JLCE) <em@editorialmanager.com> 於 2020年2月10日 週一 下午3:23寫道:
Dear Mr. Huang,

We have received the reports from our advisors on your manuscript, "Interest-driven video creation for learning mathematics", submitted to Journal of Computers in Education.

Based on the advice received, I have decided that your manuscript can be accepted for publication after you have carried out the corrections as suggested by the reviewer(s).

Below, please find the reviewers' comments for your perusal.

You are kindly requested to also check the website for possible reviewer attachment(s).

GCCCE 2024 notification for paper 101

GCCCE 2024 <gccce2024@easychair.org>

2024年3月10日 凌晨12:40

收件者: Yen-Cheng Yeh <charles@cl.ncu.edu.tw>

尊敬的YehYen-Cheng · 您好！

感谢您投稿第二十八届全球华人计算机教育应用大会 (GCCCE 2024) · 大会将于2024年6月1-5日在西南大学(重庆市)召开。目前大会主会议的投稿论文的同行匿名评审工作已全部完成。由于今年大会的投稿数量相当多且论文质量亦相当高, 大会对于投稿论文的接受与否的决策过程中除了考虑到论文质量以外, 也需要综合考虑大会日程安排以及研究主题的相关性等因素 · 因此进行了相当严格的审查。

我们很高兴的通知您, 您的论文:

论文编号: 101

论文作者: Te-Yang Chou, Yen-Cheng Yeh, Hong-Min Tu

论文标题: Confident-interest Mathematics: Teacher Learning Analytics Dashboard

子会议名称: C7: 學習分析與學習評估 (Learning Analytics & Assessments)

被接受为长篇论文 (Full Paper), 论文长度最多为8页, 大会论文模板请见下方论文集定稿格式要求说明。论文的评审意见已附于本邮件末。请您在准备最终论文集定稿版本时, 务必依照评审意见进行修改。

******论文集定稿格式要求说明******

请您在准备论文集定稿时务必依照论文评审意见进行修改并使用大会论文模板:

中文版: http://gccce2024.swu.edu.cn/GCCCE2024_geshifanlizhongwenjianti.doc英文版: <http://gccce2024.swu.edu.cn/GCCCE2024-Paper-Template-Eng.doc>******版权授权书说明******

请您通过以下网址下载并填妥版权授权书:

http://gccce2024.swu.edu.cn/GCCCE2024_banquanshouquanshu.doc

请您将已签名的版权授权书和定稿论文, 在4月10日以前, 在EasyChair投稿系统中通过以下步骤上传完成:

1. 登入 EasyChair (<https://easychair.org/conferences/?conf=gccce2024>)
2. 选择所投论文的View 后, 进入新页面后点选页面右上角之[Add or update files]
3. 分别上传: (1)定稿论文PDF版; (2)定稿论文Word版;(3)已签名的版权授权书Copyright form PDF 版。

[请注意]

1. 如您上传的文件格式不符合页数及格式规范, 我们将无法收录您的论文至大会论文集。
2. 每篇大会接受论文需要最少一位作者于2024年4月30日或之前 (早鸟优惠截止日: 2024年4月10日) 完成大会注册 · 且有出席论文口头发表 · 该篇论文才会刊登在大会论文集。
3. 大会参会注册将在这一两天内开放 · 您将会收到注册开放的提醒邮件。每名参会者最多注册两篇论文 (不论是主会议论文、工作坊论文、教师论坛或博士生论坛)。

为了提升会议沟通品质与效率 · 本研讨会提供两个交流的管道 · 建议作者可择一加入:

1. WeChat微信群: 加入方式请参考网页最新消息
2. Line群: <https://line.me/ti/g/gHEbpHilfr>

再次感谢您投稿至第二十八届全球华人计算机教育应用大会 (GCCCE 2024), 期待与您在六月相约重庆!

祝您 一切顺心

*****繁體郵件*****

尊敬的YehYen-Cheng，您好！

感謝您投稿第二十八屆全球華人計算機教育應用大會 (GCCCE 2024)，大會將於2024年6月1-5日假西南大學(重慶市)召開。目前大會主會議的投稿論文的匿名評審工作已全部完成。由於今年大會的投稿數量相當多且論文品質亦相當高，大會對於投稿論文的接受與否的決策過程中除了考慮到論文品質以外，也需要綜合考慮大會日程安排以及研究主題的相關性，因此進行了相當嚴格的審查程序。

我們很高興的通知您，您的論文：

論文編號: 101

論文作者：Te-Yang Chou, Yen-Cheng Yeh, Hong-Min Tu

論文標題: Confident-interest Mathematics: Teacher Learning Analytics Dashboard

子會議名稱：C7: 學習分析與學習評估 (Learning Analytics & Assessments)

被接受為長篇論文 (Full Paper)，論文長度最多為8頁，大會論文格式樣板請見下方論文集定稿格式要求說明。論文的評審意見已附於本郵件末。請您在準備最終論文集定稿版本時，務必依照評審意見進行修改。

****論文集定稿格式要求說明****

請您在準備論文集定稿時務必依照論文評審意見進行修改並使用大會論文樣板：

中文版: http://gccce2024.swu.edu.cn/GCCCE2024_geshifanlizhongwenjianti.doc

英文版: <http://gccce2024.swu.edu.cn/GCCCE2024-Paper-Template-Eng.doc>

****版權授權書說明****

請您經由以下網址下載並填妥版權授權書：

http://gccce2024.swu.edu.cn/GCCCE2024_banquanshouquanshu.doc

請您將已簽名的版權授權書和定稿論文，在4月10日以前，在EasyChair投稿系統中使用以下步驟上傳完成：

1. 登入 EasyChair (<https://easychair.org/conferences/?conf=gccce2024>)
2. 選擇所投論文的View 後，進入新頁面後點選頁面右上角之[Add or update files]
3. 分別上傳：(1)定稿論文PDF檔；(2)定稿論文Word檔；(3)已簽名的版權授權書Copyright form PDF 檔。

[請注意]

1. 如您上傳的文件格式不符合頁數及格式規範，我們將無法收錄您的論文至大會論文集。
2. 每篇大會接受論文需要最少一位作者於2024年4月30日或之前 (早鳥優惠截止日: 2024年4月10日) 完成大會註冊，且有出席論文口頭發表，該篇論文才會刊登在大會論文集。
3. 大會參會註冊將在這一兩天內開放。每名參會者最多註冊兩篇論文 (不論是主會議論文、工作坊論文、教師論壇或博士生論壇)。

為了提升會議溝通品質與效率，本研討會提供兩個交流的管道，建議作者可擇一加入：

1. WeChat微信群：加入方式請參考網頁最新消息
2. Line群：<https://line.me/ti/g/gHEbpHilfr>

再次感謝您投稿至第二十八屆全球華人計算機教育應用大會 (GCCCE 2024)，期待與您在六月相約重慶！

祝您 一切順心

SUBMISSION: 101
TITLE: Confident-interest Mathematics: Teacher Learning Analytics Dashboard
AUTHORS: Te-Yang Chou, Yen-Cheng Yeh and Hong-Min Tu

----- Overall evaluation -----

SCORE: 1 (weak accept)

----- TEXT:

The study introduced a learning system called 'Math Island', in which a teacher learning analytics dashboard is integrated so as to guide mathematics learning in an efficiency way. I believe that the confident-interest mathematics might be the focus of this design. However, the introduction for this focus seems insufficient. I would recommend providing more information about what is confident-interest mathematics and how this system could be helpful accordingly.

----- TEXT:

本研究基於過去發展的數學島平台，進一步在系統內建立成就目標功能，設計「教師分析儀表板」使學生可以根據自身學習目標持續追求進步，以提升其學習動機。系統包括「班級學習歷程」及「學生學習歷程」，透過學習分析儀表板，教師得以深入瞭解整體「班級」學習動態和個別「學生」的學習情況，並進行更有針對性的教學，不僅可以提升教學效果，也能滿足學生的個別需求。整體而言，這個平台對於未來數學教育的應用與發展具有潛力與價值，建議未來可以基於學習歷程發展可以動態預測學習成效，且導入可解釋AI來促進其影響學習成效之學習歷程分析與解釋。

AUTHORS: Yen-Cheng Yeh and Qiao-Min Xu

----- Overall evaluation -----

SCORE: 3 (strong accept)

----- TEXT:

本研究開發系統並進行實驗，同時進行量化分析與質性訪談，架構完整，議題值得探討。以下幾點建議供作者優化研究論文：

1. 第一次簡稱MSSR前須寫出全稱，後面則免；同樣地，IDC第一次出現時亦同。
2. 對於2.2節，遊戲化應用於閱讀的部分可再更具體與深入，目前的內容似乎以「遊戲化」為主。
3. 有關「閱讀目標」的設計，如果能有更直接相關的理論依據，會更好。
4. 圖5，請再將姓名做部分遮蔽處理。
5. 研究工具的部分，可以有更詳細的描述。
6. 參考文獻若能有一些近三年的文獻更佳。

SCORE: 3 (strong accept)

----- TEXT:

****## Summary for Paper 128****

The empirical study examined a game-based learning system to assist student reading. The system provided a dashboard of reading progress, a reward system, and a support of goal setting, aiming to engage the student in reading activities. Twenty students (2nd and 3rd graders) participated a within-subject experiment. The result showed that the student tended to read more (in both depth and breath) after the use of the system. Overall, the study presented a reasonable research design, an easy-to-understand methodology. Although it might need more experiments to investigate other factors (e.g., topics of reading materials, comparison with other systems) to consolidate the research finding, I believe the study would inspire other researchers in the field of technology-assisted reading and gamed-based learning systems.

****## Areas of Improvement****

Relatively weak descriptions about system design rationals : The design of goal setting, rewards, and reading progress looked great for students to engage in the reading activity. However, other than a little shallow gamed-based learning for reading in the literature, there seemed to be no clear rationale or argument to suggest why the three features were critical to improve student engagement. The current study would be more rigorous if it could explain the rationale behind the decision, especially how the design supports MSSR in practice.

Implicit connection between the literature review and the current study: The literature divided into three building blocks of the current study, but there was no clear argument that explains how prior research inspires the current study. For example, Mak (2019) found gamed-based learning for reading raised students' interest and improved the performance. What was the exact element that made it effect? Which part of the work did inspire the current study, in terms of system designs, research gaps, or other research-related characteristics?

No review of recent publications: The most recent publication in the literature came from 2021. Considering that this was a conference and the continuous effort in the MSSR policy, it would be great to see a review of recent works, especially research in technology-aided and gamed-based learning.
